Prevent problems!

If the dog/cat at home is used to sleeping on the bed at night, this will not be possible during dog/cat sitting, so it may be advisable to also bring a crate or a bed and some personal toys. This way the dog/cat can create its own safe place in the new environment.

We can perform additional actions for a fee, such as brushing, combing, going to training or a grooming salon or something similar if desired.

Veterinarian

URALTOBET Dogs and Cats Pension has an agreement with the veterinarian Dr. Kárpáti László established in Csemő.

Veterinarian visits are paid by the owner! Owner gives permission to URALTOBET to call in the vet if necessary, at the discretion of URALTOBET.

Agreements about a situation that will hopefully never occur but must be clear:

What to do in case of illness or death? (Leave the details on the intake form)

In case of non-collection of the pet on the agreed date, lack of information from the owner and the impossibility to contact him/her via the agreed contact details, the dog/cat will be returned 5 days after the end date of the agreed stay period is held here if there is space, otherwise the dog/cat will be housed elsewhere for a period of 5 days, after this period URALTOBET will take measures to place the dog or cat with a new owner or in an animal shelter.

This is at the expense of the owner.

If the dog/cat is picked up later than the agreed date or time of day, an additional charge will be charged equal to the daily price for the days on which the dog/cat was picked up later.

The URALTOBET Dog- and Cat Pension will not be liable to the owner for damage/costs resulting from illness, injury, loss or death of the animal, with the exception of cases involving intent or gross negligence on the part of the Pension.

Signature for read and agreed and date

The URALTOBET Dog- and Cat Pension would like to use the photos and videos of the animals for promotion of the Pension. If this is not agreed, please note this on this form.
